

Avnet would like to thank the Sponsors of **THE [resource]**

Platinum Sponsors

BROCADE

Optimising the storage infrastructure

commvault

Total information management

Unifying storage to deliver business solutions

The fabric of storage solutions

The world leader in silicon innovation

End to end Storage Area Network (SAN) components

Gold Sponsor

F5
IT Agility. Your way

Silver Sponsors

Wyse
Global leader in Thin Computing

Hitachi
High quality storage components

Solutions and Applications

For a complete list of equipment and software in **THE [resource]**, please contact your Avnet Account Manager or Technical Account Manager.

Computer Components	Display Solutions	Document Management Technologies
PC, Server & Mobility Consumer Electronics CCTV/DVR Storage NAS/SAN CAD/Design ATM/Security Automotive	LCD Monitors High Quality Displays Applications where display is critical for example; Healthcare PACS Mammography Clinical Review Air Traffic Control 2k x 2k En-Route displays Training displays Graphics Softproofing Retouching Corporate Workstations Trading Rooms	Document Scanning Image Enhancement Electronic Data Capture Electronic Document Routing Document Management Content Management Optical Character Recognition (OCR) Optical Mark Recognition (OMR) Intelligent Character Recognition (ICR) Integration with Microsoft Office SharePoint Server Integration with Electronic Content Management (ECM)

Networking and Security	Servers and Server Based Computing	Software and Business Applications	Storage and SAN
Application Delivery Application Performance Application Security and Compliance Non-Stop Networking Network Infrastructure Network Security Core Network Services Network Management Secure Mobility Remote Access Access Control Wireless Mobility Unified Communications Unified Applications Converged Networking	Server and Blade Demonstrations: IBM BladeCenter IBM Blades (AMD, Intel and POWER) IBM Power System i IBM Power System p IBM System x IBM i on Blade Sun SPARC Sun Cool Threads (CMT) Sun X86 (Intel and AMD) Sun Blades Sun Workstations Data Centre Consolidation and Migration Virtualisation Thin Computing Technologies Thin Client Terminals Thin Client Management Desktop Virtualisation Software Fully Integrated Virtual Desktop Infrastructure (VDI)	Windows (IBM OEM version) Novell – SUSE Linux Red Hat Solaris AIX, i Notes/Domino SQL My SQL Exchange Oracle for NT Oracle for Solaris Oracle for Windows Information Management Lotus Rational Tivoli WebSphere Database Advance Technologies Security and Identity Management Business Intelligence and Service Orientated Architecture Secure Global Desktop Business Continuity Infrastructure Operations Storage Information Risk and Compliance	Direct Attached Storage Network Attached Storage Storage Area Networking Archive Storage Tiered Storage High Availability Disaster Recovery Back-ups Life Cycle Management Data Management Data Connectivity Fibre Channel FCoE 10Gb Ethernet IP/iSCSI Infiniband Data Security Data Encryption I/O Virtualisation Data Archive and Compliance Virtual Storage Management Virtual SAN Infrastructure Solutions Enterprise Data Protection and Back-up for: - Oracle - Microsoft SQL, SharePoint and Exchange
