

Symantec NetBackup Puredisk 6.6 Enhanced Installation

A Partner Services consultant will install and configure a Symantec NetBackup Puredisk 6.6 Server Storage Pool Authority consisting of up to two Content Routers and/or two Metabase Servers and the installation of up to 40 NetBackup Puredisk clients. Integration of Puredisk into existing NetBackup environment via the PDDO plug-in and replication of Puredisk client data to an existing SPA at a remote location.

Key Benefits:

- The customer will benefit from the technical experience and expertise in a guided installation
- The customer will have confidence they can proceed to use the solution and that it will satisfy their needs for the period specified by the consultant
The customer will benefit from full documentation of the installation process and basic administration guidelines
- The customer will save time and future discrepancies that would otherwise occur from an unguided installation.

Service Scope:

- Install of Symantec NetBackup Puredisk 6.6 Server
- Create Storage Pool Authority (SPA)
- Install NetBackup Puredisk clients
- Create Backup Selections and Policies
- Configuration of NetBackup PDDO plug-in
- Configuration of NetBackup Puredisk replication option
- Create Backup Schedules
- Test restore functionality

- Skills Transfer/ Documentation.

Deliverables:

Successful deployment of a Symantec NetBackup Puredisk 6.6 multi-server Storage Pool Authority.

Successful back up of up to 40 Puredisk clients.

Exclusions:

- Installation and configuration of any hardware associated with the NetBackup Puredisk environment
- Hardware compatibility checks or troubleshooting
- Hardware Sizing\Performance
- WAN link\Network performance metrics
- Full DR server recovery.

Customer Responsibilities:

- Suitably specified and supported hardware for SPA
- Availability of necessary media and licenses
- Availability of NetBackup Puredisk clients for client installation
- Fully functional Name Resolution between Server and Clients

- Remote access to any 'off-site' clients from single location.

Acceptance Criteria:

Demonstration of successful Backup and Restore of a test set of data across all configured Puredisk clients.

Demonstration of Puredisk PDDP integration and replication features.

The above services are delivered during normal business hours (09:00 – 17:30) Monday – Friday, excluding bank holidays.
